Dear Sirs:

This letter is written because the above named facility is an exporter of hazardous waste. Below is a description of the hazardous waste that was exported and manifested in 2011:

1. RQ Waste Environmentally Hazardous Substances Solid, NOS (Cadmium, Tin, Zinc) Class 9, UN 3077, PGIII, F006

*12,000 pounds on -	2/18/11
*9,000 pounds on -	4/21/11
*18,000 pounds on -	8/3/11
*14,000 pounds on -	11/16/11

The total amount of waste manifested in 2011 was 53,000 pounds.

All of the above noted waste was sent to the following facility for treatment:

Stablex Canada Inc. EPA ID# NYD980756415
760 Industrial Blvd.
Blainville, Quebec J7C 3V4

Transporters

1. Transport Rollex Ltee EPA ID# NYF006000053
910 Lionel-Boulet Blvd.
Varennnes, QC
J3X 1T6

Waste Minimization

The following efforts have contributed to waste minimization over the last several years:

The sludge drier has reduced the volume of the waste significantly. A second sludge drier was installed to reduce the volume even further and counter flow rinsing on the plating lines also reduces the water volume and therefore reduces the waste.

In addition, there is a nickel evaporator to reduce metal content in the wastewater and the nickel is recycled back into the process.

We have also added water restrictors to reduce the amount of water usage.

We have added a new clarifier and media filter with the intention of recycling the wastewater for reuse.

Please call with any questions.

"I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment."

Sincerely,

Sherry Schirripa
